

# Deepak RAVIKUMAR

✉ dravikum@purdue.edu | ☎ +1 765-775-9138 | in deepak-ravikumar-tatachar | 🌐 deepaktatachar.github.io

I am a Ph.D. candidate at Purdue University ECE, specializing in trustworthy AI with industry and research experience. My research (ICML, NeurIPS, AAAI, VLDB) has earned multiple accolades, including the Estus H. and Vashti L. Magoon Research Excellence Award, NeurIPS & ICML Spotlight Papers, Purdue ECE Summer Research Grant, and the Magoon Teaching Excellence Award. I am seeking a full-time role starting spring 2025 (late May - mid June).

## EDUCATION

<b>Electrical and Computer Engineering — <i>Ph.D.</i></b> Purdue University, West Lafayette, Indiana, USA	MAY 2019 - EXP. 2025 SPRING GPA: 3.93/4.00
<b>Electrical and Computer Engineering — <i>M.S.</i></b> Purdue University, West Lafayette, Indiana, USA	AUG 2017 - MAY 2019 GPA: 4.00/4.00
<b>Electronics and Communications Engineering — <i>B.E.</i></b> M.S. Ramaiah Institute of Technology, Bangalore, Karnataka, India	AUG 2012 - JUN 2016 GPA: 9.74/10.00

## WORK EXPERIENCE

<b>Research Assistant — <i>Purdue University, West Lafayette</i></b> <i>Advisor: Prof. Kaushik Roy</i> <ul style="list-style-type: none"><li>• Researched Deep Learning security and robustness, specifically out-of-distribution detection, adversarial attacks, differential privacy and memorization in deep vision models and LLMs.</li><li>• Mentored Undergraduate researchers and collaborated with peers to research memorization and privacy in deep neural networks.</li><li>• Was the teaching faculty for Advanced C Programming (ECE 264, Summer '18) and VLSI Design (Fall '20). Was the head TA for Microprocessor System Design (ECE 362), managed <math>\approx 25</math> lab staff, and designed coursework for the labs.</li></ul>	JAN 2018 - PRESENT
<b>Machine Learning Research Intern — <i>Aizenn Corporation, West Lafayette</i></b> <i>Host: Dr. Chamika Liyanagedera</i> <ul style="list-style-type: none"><li>• Researched time series based forecast for PD fault detection using transformer model. Helped towards a multi-million dollar contract.</li><li>• Utilized React, Docker, Node.js, and Apache deployed on AWS ECS to deliver an efficient and scalable solution.</li><li>• Addressed and resolved challenges related to remote data acquisition and analytics, ensuring seamless functionality and performance.</li></ul>	JULY 2024 - AUG 2024
<b>Machine Learning Intern — <i>Microsoft Corporation, Redmond</i></b> <i>Host: Dr. Yiwen Zhu and Alex Yeo</i> <ul style="list-style-type: none"><li>• Researched and deployed Time Series Machine Learning model and pipeline for forecasting Azure Spark usage patterns using python and Cosmos DB. The deployed model saved several million dollars in running costs.</li><li>• Filed for a patent on the findings and published the paper at a top tier venue.</li></ul>	MAY 2022 - AUG 2022
<b>Software Engineer — <i>National Instruments Corporation, Bangalore</i></b> <ul style="list-style-type: none"><li>• Developed new capabilities and added features to a high precision data acquisition tool and its infrastructure using WPF and .NET.</li><li>• Improved product performance (improved latency and removed memory leaks) and developed an onboarding program to train interns and new hires on the software and hardware infrastructure.</li></ul>	JUN 2016 - JUL 2017
<b>Software Engineering Intern — <i>National Instruments Corporation, Bangalore</i></b> <ul style="list-style-type: none"><li>• Prototyped new features for NI's high precision measurement tools and pushed code into production.</li></ul>	JAN 2016 - JUN 2016

## AWARDS

- 2025 Estus H. and Vashti L. Magoon Research Excellence Award
- 2024 NeurIPS Spotlight Paper (Top 2%)
- 2024 ICML Spotlight Paper (Top 3.5%)
- 2020 Recipient of Purdue ECE Summer Research Grant
- 2019 Recipient of Magoon Award for Teaching excellence at Purdue University
- 2017 Awarded for being one of the top 3 best papers at National Instruments Tech conference
- 2016 Bronze Medal for academic excellence from RIT (Ramaiah Institute of Technology)
- 2015 Won the Texas Instruments Circuit Analysis Competition at MSRIT
- 2012 Awarded Scholarship for Higher Education for being within top 1% in Senior School Certificate Examinations

## TEACHING

- *Lecturer, ECE 559, Fall 2020* - I was the Faculty Lecturer for VLSI Design Purdue ECE 559, taught a graduate level class of about 40 students (in person and remote from several countries around the globe). Worked with a teaching assistant for the lab component associated with the course. The role included teaching responsibilities, lab responsibilities, developing the course material and grading.
- *Lecturer, ECE 264, Summer 2018* - I was the Lecturer for Advanced C Programming (Purdue ECE 264) handled a class of about 35 undergraduate students. The role included teaching responsibilities, lab responsibilities, developing the course material and grading.
- *Head TA, ECE 362, Fall 2017 - Spring 2020* - I was the Teaching Assistant for Microprocessor System Design (Purdue ECE 362) in non-summer semesters. I was the Head Teaching Assistant from Fall 2018 - Spring 2020 where I managed 3 other graduate TAs, about 20 undergraduate TAs and developed the lab material for the course. I also developed a web based ARM Cortex M0 simulator for student use.

## TALKS

- 2025 “Memorization and Privacy in Deep Learning: A Dataset-Centric Study via Input Loss Curvature”, CoCoSys Annual Review, March 2025.
- 2024 “Curvature Clues: Decoding Deep Learning Privacy with Input Loss Curvature”, NeurIPS ‘24, Dec 2024.
- 2024 “Learning to Forget: How, What and Why?”, Collins Aerospace, RTX, Nov 2024.
- 2024 “Dataset Integrity: A Curvature Perspective”, CoCoSys SRC Jump 2.0 Center Theme Meeting, August 2024.
- 2024 “Unveiling Privacy, Memorization, and Input Curvature Links”, ICML, July 2024.
- 2020 “TREND: Transferability based Robust ENsemble Design”, Center for Brain Inspired Computing Review 2020.

## SERVICE

---

- Reviewer for ICML '24 '25, NeurIPS '24 '25, WACV '25, ICLR '25, AISTATS '25, CVPR '25, ICCV '25.
- Reviewer for IEEE Transactions on Signal Processing, IEEE Transactions on Neural Networks and Learning Systems, Transactions on Machine Learning Research (TMLR).
- Edited Chapter 3 of the textbook, "Introduction to Probability for Data Science", by Prof. Stanley H. Chan.

## SKILLS

---

- Python, PyTorch, Tensorflow, Shell Script (Bash Linux), Docker, Javascript, .NET, C, C++, C#, NodeJS, Spark, CSS, React, Java, Verilog, WPF, HTML, gdb, Memory and Performance Profiling, MySQL, Azure Cosmos, AWS EC2, ECS, ECR, S3.
- Research, Design, Prototyping, Problem Solving, Debugging (pdb - Python Debugger), VS Code, Version Control (git)

## RELEVANT COURSEWORK

---

- **Machine Learning courses:** Deep Learning, Introduction to Neural Networks, Generative Models, Artificial Intelligence, Machine Learning-I, Machine Learning-II, Convex and Stochastic Optimization and Applications, Optimization for Deep Learning
- **Computer Engineering courses:** Data Structures, Computational Models and Methods, Prog. Parallel Machines, Computer Architecture
- **Math courses:** Linear Algebra and Applications, Graph Theory, Differential Equations
- **Online courses:** NLP with Deep Learning (LLM)

## LANGUAGES

---

- English (Full Professional Proficiency), Kannada (Native), Hindi (Fluent)
